

Worldwide Organisation of Executive Search

October 2007

InterSearch Among the Largest Retained Search Firms in the World

InterSearch is the 4th largest search firm worldwide for 2007, according to the annual survey conducted by *search-consult* magazine.

Issue 31 of *search-consult magazine* presents the results of the survey, which ranks global retained executive search firms by number of offices with the aim of helping HR Directors identify which providers have the strongest presence globally and regionally. InterSearch is ranked 4th globally with 80 offices, and 3rd in the EMEA region.

"Besides EMEA where InterSearch operates now with 53 offices, Asia is another fast growing economy requiring quick strategic investments. InterSearch recently strengthened the hub of Singapore and will soon announce a more extended structure in India." said Giuliano Viani, Chairman of InterSearch Worldwide.
